ISDCI Congress 2015
June 28th to July 3rd, Murcia Spain

The 13th Congress was organized by Victor Mulero, Jorge Galindo-Villegas and Pilar Sepulcre and ISDCI. It was held at a fantastic meeting venue that was an ideal size and a scientific seminar and poster program that provided something for everyone over the course of the meeting. The plenary talks (Pablo Pelegrin, Gary Felton and David Schneider) were real highlights

There were 237 attendees from 25 countries, of which approximately half were regular ISDCI members and approximately one quarter were students.

Keynote speakers

- Dr. Pablo Pelegrin: *Inflammasomes: key regulators of the innate immune response*
- Dr. Gary W Felton: *Herbivore Gut Symbionts Mediate the Intersection of Insect and Plant Immunity*
- Dr. David Schneider: *Mapping and warping disease space to improve recovery from infections*
